

FIG. 2 is a schematic diagram of a circuit block 11. The block is enclosed in a dashed box. It has three inputs: VDD, XB, and XA. VDD is connected to a vertical line 19. XB and XA are connected to a central vertical line 11. The block has two outputs: CLKOUT and OE. CLKOUT is connected to a line 29. OE is connected to a line 27. The block is also connected to GND at the bottom.
